

## Product Description: 240V Candle 3W Glass Non-Dimmable LED Lamp

The simply classic glass E360™ GLS, Candle and Golf Ball lamps look so much like traditional filament bulbs that you wouldn't be able to tell they're LED. Utilising the latest LED technology and GlassTec™ design, light is distributed in a full 360° angle. This ensures even illumination and warm light spread as found with traditional filament technology, but at a fraction of the energy consumption.
