

**Product Description:** LEDLine™ IP67 RGBW Flexible Strip

LEDline™ RGBW colour changing 24V IP67 super bright LED strip is ideal for when LED strip with a higher lumen output is required in wet environments and external applications. The option of RGBW helps the user choose between colour changing or offering a pure white finish all in one strip. Increased brightness by using twice as many LEDs per metre than standard LED strip. RGBW 4 in 1 LEDs allows for programmable settings including static colours, colour changing and pure white modes. Maximum power consumption of 19.2W per metre. Strip can be cut to length and 2m leads soldered to special order.
