## Feature & Benefits

- RGB & White colour changing flexible LED strip with self adhesive backing (must be applied to clean surfaces)
- Single RGB LED chip allows programmable settings including static colours and colour changing modes dependant on the control system used
- Separate White LED can be lit with the RGB LED or independently
- Cut point every 198mm
- 16.5mm between LEDs
- Voltage drop of 2V per 5 metres
- Maximum length of run 10m
- For runs over 10m individual lengths should be connected in parallel
- Very low power consumption 14.4W with LEDs at 100%
- Copper track for effective heat dissipation and long life
- Requires 24V DC Constant Voltage LED driver
- Please order to the nearest metre. Prices per metre (Reel length 5m)
- 3 Year Warranty - see [www.auroralighting.com](http://www.auroralighting.com) for details

## Product Specs:

|                          |           |                          |       |
|--------------------------|-----------|--------------------------|-------|
| Input Voltage            | 24~24V DC | Width (mm)               | 12    |
| Height (mm)              | 2.3       | Operating Temp. (Min) °C | -40°C |
| Operating Temp. (Max) °C | 70°C      |                          |       |

## Compliance & Approvals:

## Warranty:

This product has a warranty period of 1 Year. Warranties may be available on certain products as indicated in the product description. Warranties are valid from the date of purchase. The warranty is invalid in the case of improper use, installation, tampering, removal of the Q.C. date label or installation in an improper working environment or installation. Should this product fail during the warranty period it will be replaced free of charge, subject to the correct installation of the original product and subsequent return of the faulty unit. Aurora does not accept responsibility for any installation costs associated with the replacement of this product and Aurora reserves the right to alter specifications without prior notice.
