

Product Description:

Microwave Sensor Remote Controller for AR-MS1-S and AR-MS1-C

The Aurora remote control can program your microwave sensors once installed from upto 49ft away once installed, so looking directly up in a suspended installation, allowing for ease of programming on site once the client understand's their requirements.

It allows for simple set up picking out what is important to the client with ease from a long dimmed hold time before switching off, or a long hold time before your lights dim down. This allows versatility in areas where there is high traffic where you will not want lights dimming up and down constantly and also areas where passing traffic
