AURORA® LIGHTING

LEDline™ PROCX

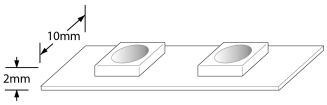

Product Description: LEDLine™ CX 9.6W CRI90 Tuneable White LED Strip

24V Tuneable White CRI90 LED strip is suitable for use in applications where a range of colour temperatures may be required. The tuneable white feature allows the strip to adjust colour temperature between 2500-6000K. With a beam angle of 120° individual light points are less visible creating a continuous glow, delivering up to 750lm per metre. Strip is ideal for use with the AOne™ AU-A1ZBSCCX tuneable white strip controller & the app for further control. Wall controller option is also available. Strip can be cut to length and 2m leads soldered to special order. Reel length 30m.
